Using Avaya J129 IP Phone
© 2016-2017, Avaya Inc. All Rights Reserved.

Note
Using a cell, mobile, or GSM phone, or a two-way radio in close proximity to an Avaya IP telephone might cause interference.

Documentation disclaimer
“Documentation” means information published in varying mediums which may include product information, operating instructions and performance specifications that are generally made available to users of products. Documentation does not include marketing materials. Avaya shall not be responsible for any modifications, additions, or deletions to the original published version of Documentation unless such modifications, additions, or deletions were performed by or on the express behalf of Avaya. End User agrees to indemnify and hold harmless Avaya, Avaya’s agents, servants and employees against all claims, lawsuits, demands and judgments arising out of, or in connection with, subsequent modifications, additions or deletions to this documentation, to the extent made by End User.

Link disclaimer
Avaya is not responsible for the contents or reliability of any linked websites referenced within this site or Documentation provided by Avaya. Avaya is not responsible for the accuracy of any information, statement or content provided on these sites and does not necessarily endorse the products, services, or information described or offered within them. Avaya does not guarantee that these links will work all the time and has no control over the availability of the linked pages.

Warranty
Avaya provides a limited warranty on Avaya hardware and software. Refer to your sales agreement to establish the terms of the limited warranty. In addition, Avaya’s standard warranty language, as well as information regarding support for this product while under warranty is available to customers and other parties through the Avaya Support website: https://support.avaya.com/helpcenter/

Licenses
THE SOFTWARE LICENSE TERMS AVAILABLE ON THE AVAYA WEBSITE, HTTPS://SUPPORT.AVAYA.COM/LICENSEINFO, UNDER THE LINK “AVAYA SOFTWARE LICENSE TERMS (Avaya Products)” OR SUCH SUCCESSOR SITE AS DESIGNATED BY AVAYA, ARE APPLICABLE TO ANYONE WHO DOWNLOADS, USES AND/OR INSTALLS AVAYA SOFTWARE, PURCHASED FROM AVAYA INC., ANY AVAYA AFFILIATE, OR AN AVAYA CHANNEL PARTNER (AS APPLICABLE) UNDER A COMMERCIAL AGREEMENT WITH AVAYA OR AN AVAYA CHANNEL PARTNER. UNLESS OTHERWISE AGREED TO BY AVAYA IN WRITING, AVAYA DOES NOT EXTEND THIS LICENSE IF THE SOFTWARE WAS OBTAINED FROM ANYONE OTHER THAN AVAYA, AN AVAYA AFFILIATE OR AN AVAYA CHANNEL PARTNER; AVAYA RESERVES THE RIGHT TO TAKE LEGAL ACTION AGAINST YOU AND ANYONE ELSE USING OR SELLING THE SOFTWARE WITHOUT A LICENSE. BY INSTALLING, DOWNLOADING OR USING THE SOFTWARE, OR AUTHORIZING OTHERS TO DO SO, YOU, ON BEHALF OF YOURSELF AND THE ENTITY FOR WHOM YOU ARE INSTALLING, DOWNLOADING OR USING THE SOFTWARE (HEREINAFTER REFERRED TO INTERCHANGEABLY AS “YOU” AND “END USER”), AGREE TO THESE TERMS AND CONDITIONS AND CREATE A BINDING CONTRACT BETWEEN YOU AND AVAYA INC. OR THE APPLICABLE AVAYA AFFILIATE (“AVAYA”).

Avaya grants You a license within the scope of the license types described below, with the exception of Heritage Nortel Software, for which the scope of the license is detailed below:

License types
Designated System(s) License (DS). End User may install and use each copy or an Instance of the Software only on a number of Designated Processors up to the number indicated in the order. Avaya may require the Designated Processor(s) to be identified in the order by type, serial number, feature key, Instance, location or other specific designation, or to be provided by End User to Avaya through electronic means established by Avaya specifically for this purpose.

Shrinkwrap License (SR). You may install and use the Software in accordance with the terms and conditions of the applicable license agreements, such as “shrinkwrap” or “clickthrough” license accompanying or applicable to the Software (“Shrinkwrap License”).

Heritage Nortel Software
“Heritage Nortel Software” means the software that was acquired by Avaya as part of its purchase of the Nortel Enterprise Solutions Business in December 2009. The Heritage Nortel Software is the software contained within the list of Heritage Nortel Products located at HTTPS://SUPPORT.AVAYA.COM/LICENSEINFO under the link “Heritage Nortel Products” or such sense as is detailed by or on the Avaya Support website. Avaya grants you a limited license to use Heritage Nortel Software provided hereunder solely to the extent of the authorized activation or authorized usage level, solely for the purpose specified in the Documentation, and solely as embedded in, for execution on, or for communication with Avaya equipment. Charges for Heritage Nortel Software may be based on extent of activation or use authorized as specified in an order or invoice.

Copyright
Except where expressly stated otherwise, no use should be made of materials on this site, the Documentation, Software, Hosted Service, or hardware provided by Avaya. All content on this site, the
documentation, Hosted Service, and the product provided by Avaya including the selection, arrangement and design of the content is owned either by Avaya or its licensors and is protected by copyright and other intellectual property laws including the sui generis rights relating to the protection of databases. You may not modify, copy, reproduce, retransmit, broadcast, upload, post, or distribute any content, in whole or in part, including any code and software, unless expressly authorized by Avaya. Unauthorized reproduction, transmission, dissemination, storage, and or use without the express written consent of Avaya can be a criminal, as well as a civil offense under the applicable law.

Virtualization
The following applies if the product is deployed on a virtual machine. Each product has its own ordering code and license types. Note that each instance of a product must be separately licensed and ordered. For example, if the end user customer or Avaya Channel Partner would like to install two instances of the same type of products, then two products of that type must be ordered.

Third Party Components
“Third Party Components” mean certain software programs or portions thereof included in the Software or Hosted Service may contain software (including open source software) distributed under third party agreements (“Third Party Components”), which contain terms regarding the rights to use certain portions of the Software (“Third Party Terms”). As required, information regarding distributed Linux OS source code (for those products that have distributed Linux OS source code) and identifying the copyright holders of the Third Party Components and the Third Party Terms that apply is available in the products. Documentation or on Avaya’s website at: https://support.avaya.com/Copyright or such successor site as designated by Avaya. The open source software license terms provided as Third Party Terms are consistent with the license rights granted in these Software License Terms, and may include additional rights benefiting You, such as modification and distribution of the open source software. The Third Party Terms shall take precedence over these Software License Terms, solely with respect to the applicable Third Party Components to the extent that these Software License Terms impose greater restrictions on You than the applicable Third Party Terms.

The following applies only if the H.264 (AVC) codec is distributed with the product. THIS PRODUCT IS LICENSED UNDER THE AVC PATENT PORTFOLIO LICENSE FOR THE PERSONAL USE OF A CONSUMER OR OTHER USES IN WHICH IT DOES NOT RECEIVE REMUNERATION TO (i) ENCODE VIDEO IN COMPLIANCE WITH THE AVC STANDARD (“AVC VIDEO”) AND/OR (ii) DECODE AVC VIDEO THAT WAS ENCODED BY A CONSUMER ENGAGED IN A PERSONAL ACTIVITY AND/OR WAS OBTAINED FROM A VIDEO PROVIDER LICENSED TO PROVIDE AVC VIDEO. NO LICENSE IS GRANTED OR SHALL BE IMPLIED FOR ANY OTHER USE. ADDITIONAL INFORMATION FOR H.264 (AVC) AND H.265 (HEVC) CODECS MAY BE OBTAINED FROM MPEG LA, L.L.C. SEE HTTP://WWW.MPEGLA.COM.

Compliance with Laws
You acknowledge and agree that it is Your responsibility for complying with any applicable laws and regulations, including, but not limited to laws and regulations related to call recording, data privacy, intellectual property, trade secret, fraud, and music performance rights, in the country or territory where the Avaya product is used.

Preventing Toll Fraud
“Toll Fraud” is the unauthorized use of your telecommunications system by an unauthorized party (for example, a person who is not a corporate employee, agent, subcontractor, or is not working on your company's behalf). Be aware that there can be a risk of Toll Fraud associated with your system and that, if Toll Fraud occurs, it can result in substantial additional charges for your telecommunications services.

Avaya Toll Fraud intervention
If you suspect that you are being victimized by Toll Fraud and you need technical assistance or support, call Technical Service Center Toll Fraud Intervention Hotline at +1-800-643-2353 for the United States and Canada. For additional support telephone numbers, see the Avaya Support website: https://support.avaya.com or such successor site as designated by Avaya.

Security Vulnerabilities
Information about Avaya’s security support policies can be found in the Security Policies and Support section of https://support.avaya.com/security.

Suspected Avaya product security vulnerabilities are handled per the Avaya Product Security Support Flow (https://support.avaya.com/csa/P8/documents/100161515)

Downloading Documentation
For the most current versions of Documentation, see the Avaya Support website: https://support.avaya.com, or such successor site as designated by Avaya.

Contact Avaya Support
See the Avaya Support website: https://support.avaya.com for product or Hosted Service notices and articles, or to report a problem with your Avaya product or Hosted Service. For a list of support telephone numbers and contact addresses, go to the Avaya Support website: https://support.avaya.com (or such successor site as designated by Avaya), scroll to the bottom of the page, and select Contact Avaya Support.

Regulatory Statements
Australia Statements

Handset Magnets Statement:

Danger:
The handset receiver contains magnetic devices that can attract small metallic objects. Care should be taken to avoid personal injury.

Industry Canada (IC) Statements

RSS Standards Statement
This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: 

1. L'appareil ne doit pas produire de brouillage, et 
2. L'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Radio Transmitter Statement

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (EIRP) is not more than that necessary for successful communication.

Conformément à la réglementation d'Industrie Canada, le présent émetteur radio peut fonctionner avec une antenne d'un type et d'un gain maximal (ou inférieur) approuvé pour l'émetteur par Industrie Canada. Dans le but de réduire les risques de brouillage radioélectrique à l'intention des autres utilisateurs, il faut choisir le type d'antenne et son gain de sorte que la puissance isotrope rayonnée équivalente ne dépasse pas l'intensité nécessaire à l'établissement d'une communication satisfaisante.

This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Radiation Exposure Statement

This equipment complies with FCC & IC RSS102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Cet équipement est conforme aux limites d'exposition aux rayonnements ISEDétablies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

Japan Statements

Class B Statement

This is a Class B product based on the standard of the VCCI Council. If this is used near a radio or television receiver in a domestic environment, it may cause radio interference. Install and use the equipment according to the instruction manual.

この装置は、クラスB情報技術装置です。この装置は、家庭環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に近接して使用されると、受信障害を引き起こすことがあります。

取扱説明書に従って正しい取り扱いをして下さい。VCCI-B

Denan Power Cord Statement

Danger:

Please be careful of the following while installing the equipment:

- Please only use the connecting cables, power cord, and AC adapters shipped with the equipment or specified by Avaya to be used with the equipment. If you use any other equipment, it may cause failures, malfunctioning, or fire.
- Power cords shipped with this equipment must not be used with any other equipment. In case the above guidelines are not followed, it may lead to death or severe injury.

U.S. Federal Communications Commission (FCC) Statements

Compliance Statement

The changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

To comply with the FCC RF exposure compliance requirements, this device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and 
2. This device must accept any interference received, including interferences that may cause undesired operation.

When using IEEE 802.11a wireless LAN, this product is restricted to indoor use, due to its operation in the 5.15 to 5.25GHz frequency range. The FCC requires this product to be used indoors for the frequency range of 5.15 to 5.25GHz to reduce the potential for harmful interference to co channel mobile satellite systems. High-power radar is allocated as the primary user of the 5.25 to 5.35GHz and 5.65 to 5.85GHz bands. These radar stations can cause interference with and/or damage to this device.

Class B Part 15 Statement

For product available in the USA/Canada market, only channel 1~11 can be operated. Selection of other channels is not possible.

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designated to provide reasonable protection against harmful interferences in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interferences to radio or television reception, which can be determined by turning the

Power over Ethernet (PoE) Statement

This equipment must be connected to PoE networks without routing to the outside plant.
equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Radiation Exposure Statement**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 8 in or 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

**EU Countries**

This device complies with the essential requirements and other relevant provisions of Directive 1999/5/EC. A copy of the Declaration may be obtained from http://support.avaya.com or Avaya Inc., 4655 Great America Parkway, Santa Clara, CA 95054–1233 USA.

**General Safety Warning**

- Use only the Avaya approved Limited Power Source power supplies specified for this product.
- Ensure that you:
  - Do not operate the device near water.
  - Do not use the device during a lightning storm.
  - Do not report a gas leak while in the vicinity of the leak.
  - Limit the power to the device over telecommunications wiring to 36-57 volt DC or ≤ 1.3 ampere DC.

Chapter 1: Introduction

Purpose

This document describes how to use Avaya J129 IP Phone features.
This document is intended for people who use Avaya J129 IP Phone.
Chapter 2: Avaya J129 IP Phone overview

The Avaya J129 IP Phone is a SIP-based phone intended to be used for basic business communications. The phone supports two-call appearances with a single-line call display.

**Physical specifications**

- Two call appearances
- A 128 x 32 pixels graphical LCD
- Three softkeys
- Dual 10/100 network ports
- Power over Ethernet class one device
- Magnetic Hook Switch
Physical layout

Chapter 3: Getting started

Entering the provisioning server address

About this task
Use this procedure to enter the provisioning server address where asked to do so. For example, when the phone is first plugged into the network.

Before you begin
Get the provisioning server address from the system administrator.

Procedure
1. On the Configure Provision Server screen, press one of the following softkeys:
   - **Config**: To enter the provisioning server address.
   - **Never**: To never prompt for the provisioning server address.
   - **Cancel**: To cancel the prompt and display the Log Out screen. You can also press **Back** to cancel the prompt and display the Log Out screen.
2. In the **Prov Server** field, enter the provisioning server address. The address can be in the form of a numerical IP address or an alphanumeric Fully Qualified Domain Name (FQDN).
   ✨ Tip:
   To enter the dot symbol (.) in the field, press the alphanumeric softkey to toggle to the alphanumeric mode.
3. Press **Save**.
   The phone reboots.

Logging in to your phone

About this task

Before you begin
Get the log in password from the system administrator.
Procedure
1. Press the Log In softkey.
2. Enter your extension.
3. Enter the password that your administrator assigned to you.
4. Press Enter or OK or #.

Logging out of your phone

About this task
If the administrator enables the offline call-log feature, missed calls are added to the call history. The offline call-log feature is only available in an Avaya Aura® environment.

Procedure
1. Press Main Menu > Log Out.

   Note:
   In IP Office, press Main Menu > Admin > Log Out.

2. Press Log Out when the phone prompts for confirmation.

Locking and unlocking the phone

About this task
Use this procedure to lock your phone to prevent the use of the phone when you are away. Locking your phone does not log you out, so you can make emergency calls and receive calls.

Procedure
- To lock the phone, press Main Menu > Lock.
- To unlock the phone, press Unlock and enter the log in password.
Chapter 4: Handling outgoing calls

Making a call by using the dial mode

About this task
Use this procedure to make a call without lifting the handset or pressing Speaker.

Before you begin
Set the dial mode on the phone to Auto or Manual.

Procedure
• If the dial mode is set to Auto, dial the required number of digits.
  The phone initiates the call when the inter digit timer times out.
• If the dial mode is set to Manual, dial the number and press the Call softkey.

Setting the Dial mode on page 43

Making a call without using the dial mode

Procedure
1. Lift the handset or press Speaker.
2. Press the digits on the dial pad.
   The phone initiates the call when the inter digit timer times out.

Redialing a number

About this task
Use this procedure to redial a number. If you delete the outgoing call log, the last dialed number is deleted.
Procedure
On the Phone screen, press one of the following:

• Redial
• OK

Making a call using speed dial

About this task
This feature is only available in the Avaya Aura® environment.

Before you begin
Ensure that you assign speed dial numbers to your contacts.

Procedure
Press and briefly hold the dialpad key assigned to the person you want to call.

Related links
Assigning Speed Dial on page 43

Toggling between calls

About this task
Use this procedure to toggle between active call appearances.

Before you begin
Ensure that you have more than one active call appearances.

Procedure
1. Press Swap.
   The current call goes on hold and the other resumes.
2. Press Swap again to go back to the first call.

Making a call from the local contacts list

Procedure
1. Press Main Menu > Contacts.
The phone displays the message Use dialpad to search.

2. Press the digits on the dial pad that correspond to the letters of the name of the person you want to call. For example, press 764 to search for someone whose name is Smith.

3. Press one of the following to start a call to the selected number:
   • Call
   • OK

Making a call from the corporate database contacts list

About this task
Use this procedure to make a call from the corporate database contacts list. This feature is only available in the Avaya Aura® environment.

Procedure
1. On the Phone screen, press one of the following:
   • Main Menu > Contacts > Search.
   • Contacts > Search.
2. Press the digits on the dial pad that correspond to the name of the person you want to call.
3. Press Search.
4. Press one of the following to start a call:
   • Call
   • OK

Making a call from call history

About this task
Use this procedure to make a call from call history. If the system administrator configures emergency calling for your phone, then Emerg softkey replaces the Recents softkey.

Procedure
1. On the Phone screen, press one of the following:
   • Main Menu > Recents
   • Recents
2. Use the Up and Down Arrow keys to select the number that you want to call.

3. Press one of the following to start a call:
   - Call
   - OK

Emergency calling overview

Emergency calling is used to connect with a preset emergency services number.

You can make an emergency call from the following screens:
   - The Status screen
   - The Lock screen.

However, in IP Office environment, you can make an emergency call only when you are logged in to your phone.

If your system administrator configures emergency calling for your phone, the Phone screen displays an Emerg softkey. Otherwise, a Recents softkey replaces the Emerg softkey. Using the Emerg softkey, you can dial only the number that is given the highest priority by the system administrator. Alternatively, you can also dial the emergency numbers by using the dial pad in the following cases:
   - The Emerg softkey is unavailable
   - The Emerg softkey is available. However, you want to call an emergency number that is not the highest priority number set by the system administrator.

In IP Office environment, Emerg softkey is not available. You must dial the emergency number by using the dial pad.

---

Making an emergency call

Procedure

Do one of the following:
   - On the Phone screen, press Emerg softkey, and again press Emerg when the phone prompts for confirmation.
   - Dial the emergency number by using the dial pad.
Making an international call

About this task

E.164 is a standard format of international public telephone numbering. An E.164 number can have up to 15 digits and is preceded by a plus sign (+). Use the following procedure to dial an E.164 number.

Procedure

1. Long press the 0 key to display the plus sign (+).
2. Dial the number that you want to call.
Chapter 5: Handling incoming calls

Answering a call

About this task
Use this procedure to answer a call. When you receive a call, the phone does the following:
- Generates audio visual alerts.
- Displays the name or number of the incoming call.

Procedure
Do one of the following:
- Lift the handset.
- Press Speaker.
- Press OK.
- Press the Answer softkey.

Related links
Placing a call on hold and resuming the call on page 36

Answering a call when on another call

About this task
Use this procedure to answer a call when you are attending a call. When you get another call while you are on a call, the phone plays a call waiting tone. If you disconnect the ongoing call without answering the other call, the phone stops playing the call waiting tone and generates audio visual alerts.

Procedure
Press one of the following:
- The Answer softkey
- OK

The phone puts the first call on hold and moves to the second call.
Ignoring a call

About this task

Use this procedure to ignore a call. When you ignore a call, the phone does not disconnect the call. If you ignore a call while you are on a call, you can still use the Up and Down Arrow keys to select the call and then answer the call.

Procedure

Press one of the following:

- The Ignore softkey
- Back

The phone turns off the audio alert and returns to the previous screen.

Switching to another phone during an active call

About this task

The phone supports Multiple Device Access (MDA) in which you can register up to 10 SIP devices with your extension. If you register to multiple devices with the same extension, you can switch between devices during an active call.

This feature is only available in an Avaya Aura® environment.

Before you begin

Ensure that the system administrator activates the option for your extension.

Procedure

1. Answer the incoming call from your phone.
2. To switch to the other phone, press Bridge on that phone.

Making an attended transfer

About this task

An attended transfer is when you put an active call on hold and establish a second call with the call-transfer recipient before transferring the call.

Procedure

1. While on the first call, press the Transfer softkey.
2. Do one of the following:
   - Use the keypad to dial the number to which you want to transfer the call.
• Call the person from the **Contacts** list or the **Recents** list.
  The first call is put on hold, and the recipient's phone starts ringing.

3. Press the **Complete** softkey after the recipient answers the call.
  The phone transfers the call to the selected number.

---

### Making an unattended transfer

**About this task**

An unattended transfer is when you transfer an active call without establishing a call with the call-transfer recipient.

**Procedure**

1. While on the first call, press the **Transfer** softkey.

2. Do one of the following:
   - Use the keypad to dial the number to which you want to transfer the call.
   - Call the person from the **Contacts** list or the **Recents** list.
  The first call is put on hold, and the recipient's phone starts ringing.

3. To complete the transfer, press the **Complete** softkey.
  The phone transfers the call to the selected number.

   If the called party does not answer the call, then the unanswered call returns to your phone as a recalled transfer call.

---

### Transferring a call on hold

**About this task**

Use this procedure to transfer a call on hold to an outgoing or an incoming call.

**Before you begin**

Press **Hold** to put an ongoing call on hold.

**Procedure**

1. Press one of the following softkeys:
   - **NewCall**: To make a new call.
   - **Answer**: To answer a call

2. When the called party answers the call or you answer the call, press the **Transfer** softkey.
3. Press the **Transfer** softkey again when the phone prompts for confirmation.
Chapter 6: Managing contacts

Adding a new contact

About this task
Use this procedure to add a contact to the phone. You can save a maximum of 250 contacts.

Procedure

1. Do one of the following:
   - If there is no contact in the contacts list, press Contacts > New or press Main Menu > Contacts > New.
   - If there is at least one contact in the contacts list, press Contacts > More > New or press Main Menu > Contacts > More > New.

2. Use the dial pad to enter the name.
   - Press the number key that corresponds to the letter or number that you want to enter.
   - If the characters are on the same key, pause before entering the next character.
   - To enter a space, press 0.
   - Enter the remaining letters or numbers.
   - To enter a symbol, press More > Symbol. Use the navigation arrows to highlight the symbol that you want to enter and press Insert.
   - To delete the last character, press the Bksp softkey.

3. Enter the number.
   - The contact number can include uppercase and lowercase letters, numbers 0-9, and special symbols, such as comma (,), plus (+), and dot (.)

4. Press Save.

Editing a contact

About this task
Use this procedure to edit a contact in the contacts list. In IP Office environment, during failover, the Edit softkey is not available.
Before you begin
You must have at least one contact in the contacts list.

Procedure
1. Do one of the following:
   • Press Contacts.
   • Press Main Menu > Contacts.
2. Select the contact that you want to edit.
4. Choose the field that you want to edit.
5. Use the dial pad and softkeys to change the contact information.
6. Press Save.

Viewing the contact details

About this task
Use this procedure to view the details of a contact. You can make a call, edit or delete a contact from the details.

Before you begin
You must have at least one contact in the contacts list.

Procedure
1. Do one of the following:
   • Press Contacts.
   • Press Main Menu > Contacts.
2. Select the contact that you want to view.
3. Press More > Details.
   • To call a contact, press Call.
   • To edit a contact, press Edit.
   • To delete a contact, press Delete.
Searching for a contact

About this task
Use this procedure to search contacts from the local contacts list or enterprise directory. However, in IP Office environment, you can search for a contact only from the local contacts list.

Procedure
1. To search for a contact from the local contacts, do the following:
   a. Press Main Menu > Contacts.
      The phone displays the message Use dialpad to search.
   b. Press the digits on the dial pad that correspond to the letters of the name of the person you want to call. For example, press 764 to search for someone whose name is Smith.
2. To search for a contact from the enterprise directory, do the following:
   a. On the Phone screen, press Contacts > Search or press Main Menu > Contacts > Search.
   b. Use the dialpad to enter the name.
   c. Press Search.
      To add the contact to the local contacts, press +Contact.

Deleting a contact

Before you begin
You must have at least one contact in the contacts list.

Procedure
1. Do one of the following:
   • Press Contacts.
   • Press Main Menu > Contacts.
2. Select the contact you want to delete.
3. Press More > Details > Delete.
Chapter 7: Managing call history

Turning call history on and off

Procedure
1. Press **Main Menu > Settings > Phone Settings**.
2. Use the **Down Arrow** key to go to the Log recent calls screen.
3. To toggle the call history feature on or off, do one of the following:
   - Select **Change**.
   - Use the **Left** and **Right Arrow** keys.
4. Press **Save**.

- [Clearing the call history menu](#) on page 32

Viewing call history details

Procedure
1. Do one of the following:
   - Press **Recents**.
   - Press **Main Menu > Recents**.
2. Select the number that you want to view.
3. Press **Details**.

   The details section contain: call type icon such as incoming call icon, outgoing call icon, or missed call icon, name, extension number, time, date, and duration.
Adding or deleting a call record from the call history menu

Procedure
1. Do one of the following:
   • Press Recents.
   • Press Main Menu > Recents.
2. Select the number that you want to add or delete.
3. Select Details.
4. Select one of the following:
   • +Contact: To add a call record from the call history menu to the contacts list.
   • Delete: To delete a call record from the call history.

Clearing the call history menu

Procedure
1. Do one of the following:
   • Press Recents.
   • Press Main Menu > Recents.
2. Select ClearAll.
   Note:
   In IP Office, the ClearAll softkey is available only from the Main Menu.
3. Select one of the following when the phone prompts for confirmation:
   • ClearAll: To clear all entries.
   • Cancel: To cancel and return to the previous menu.
Chapter 8: Managing conference calls

Adding a person to an active call

About this task
Use this procedure to add participants to an active call to set up a conference call.

Before you begin
You must be on a call to initiate a conference call.

Procedure
1. During a call, on the Phone screen, press Conf.
   The phone puts the second call on hold.
2. To make a call to a third participant, do one of the following:
   • Dial the phone number by using the dial pad.
   • Call the person from the Contacts list or from the Recents list
   • Redial the last dialed number by using the Redial softkey.
   The third participant answers the call.
3. Press the Join softkey.
4. To add another person, press Add and repeat steps 3 and 4.
   In IP Office environment, the Add softkey is not available. Therefore, the conference is hosted on the phone and only three participants are supported.

Adding a person on hold to a conference call

About this task
Use this task to add a person that you have put on hold to a conference call.

Procedure
1. During an active call, press Hold.
2. Do one of the following:
   • To make a new call, press NewCall and dial the extension of the second person.
Managing conference calls

- To answer an incoming call, press Answer.

  🟢 **Note:**
  
  To toggle between the calls, press Swap.

3. When the second person answers the call, press the Conf softkey.

The person on hold adds to the conference call.

**Putting a conference call on hold**

**About this task**

Use this procedure to put a conference call on hold, while the other parties can talk to each other.

**Procedure**

1. Press Hold during a conference call.
2. Press Resume or OK or select the call appearance to resume the conference call.
Chapter 9: Using call related features

Muting and unmuting a call

Procedure

1. To mute an active call, press Mute.
2. To unmute the call, press Mute again.

Note:
The Mute button is illuminated when you press mute.

Activating Mute Alert

About this task
Use this procedure to configure your phone to alert if you speak while your phone is on mute.

Before you begin
Ensure that the system administrator activates the option for your extension.

Procedure

1. Press Main Menu > Settings > Phone Settings.
2. Use the Down Arrow key to go to the Mute Alert screen.
3. Press Change to select one of the following:
   • Audible: If you put a call on mute and start speaking after eight seconds, the phone produces a beep to notify that you are on mute.
   • Visual: If you put a call on mute and start speaking after eight seconds, the phone displays the Call Muted icon.

Note:
If the user stops talking while mute alerting is on, after a delay of 500 milliseconds, the call muted icon is replaced by the normal active call icon
   • Both: Combines the actions of both audible and visual alerting.
   • None: Disables the mute alert for your phone.
4. Press **Save**.
   Mute alert turns off automatically when you take the call off mute.

---

**Visual alerting**

The beacon LED works in the following manner to indicate incoming calls and messages:

- If there is an incoming call, the beacon LED blinks.
- If there are new voice mail messages, the beacon LED is lit continuously.
- If the speaker is on during an active call and there are new voice mail messages, the beacon LED turns off every 15 seconds.
- If the speaker is on during an active call and there are no voice mail messages, the beacon LED turns on every 15 seconds.

⚠️ **Note:**

- When the call is on speaker, the speaker icon (กระจาย) replaces the active call handset (汕头) icon.
- If the call is on hold, the beacon LED stops flashing.

**Placing a call on hold and resuming the call**

**Procedure**

1. To put an active call on hold, press **Hold**.
2. To resume the call, press **Resume** or **OK**.

---

**Activating transfer to voice mail**

**About this task**

Use this procedure to transfer an active call to voice mail.

**Before you begin**

Your system administrator must activate the feature for your extension.

This feature is only available in the Avaya Aura® environment.
Procedure
1. During an active call, press **Main Menu > Features**.
2. Use the **Down Arrow** key to go to the Transfer to VM screen.
3. Press **Select** or **OK** to activate the transfer to voice mail.

Parking and unparking a call

About this task
Use this procedure to park the active call and answer the call from another extension.
This feature is only available in the Avaya Aura® environment.
Your system administrator must activate the feature for your extension.
In the IP Office environment, this feature is supported using short code dialing. Contact your system administrator for the list of short codes.

Procedure
1. While on an active call, press **Main Menu > Features**.
2. Use the **Down Arrow** key to go to the Call Park screen.
3. Press **Select** or **OK**.
   The phone parks the call.
4. To answer a parked call, press **Main Menu > Features**.
5. Use the **Down Arrow** key to go to the Call Unpark screen.
6. Press **Select** or **OK**.
7. Enter the extension from which the call was parked.
8. Press **OK**.
   The phone unparks the call.

Activating Do Not Disturb

About this task
Use this procedure to direct incoming calls to a predefined coverage number that is set by the system administrator.
In the IP Office environment, this feature is supported using short code dialing. Contact your system administrator for the list of short codes.
Before you begin
Your system administrator must activate the feature for your extension.

Procedure
1. Press **Main Menu > Features**.
2. Use the **Down Arrow** key to go to the Do Not Disturb screen.
3. Select **Do Not Disturb**.

---

Setting up automatic call back

About this task
When an extension is busy, use this procedure to receive a call back automatically after the extension is free.

In the IP Office environment, this feature is supported using short code dialing. Contact your system administrator for the list of short codes.

Before you begin
Your system administrator must activate the feature for your extension.

Procedure
1. During an active call, press **Main Menu > Features**.
2. Use the **Down Arrow** key to go to the Auto Callback screen.
3. Press **Select** or **OK** to activate **Auto Callback**.

When you end the callback call, the system deactivates the feature automatically.

---

Call Forward overview

Use the Call Forward feature to divert incoming calls to another number. The phone supports the following Call Forward types:

- **Call Forward**: Forwards all incoming calls to another number.
- **Call Forward Busy**: Forwards incoming calls to another number if you are on a call.
- **Call Forward No Answer**: Forwards incoming calls that you do not answer within a stipulated time to another number.
Activating and deactivating call forward

About this task
Use this procedure to forward incoming calls to a specified number.

In the IP Office environment, this feature is supported using short code dialing. Contact your system administrator for the list of short codes.

Before you begin
Ensure that the system administrator enables Call Forward features for your extension.

Procedure
1. Press Main Menu > Features.
2. Use the Down Arrow key to go to one of the following Call Forward screens.
   - Call Fwd
   - Call Forward-Busy
   - Call Forward-No Answer
3. Press Select or OK.
4. In the Destination field, enter the number where you want to forward the incoming calls.
5. Press Save or OK.
   The phone generates a confirmation tone and returns to the Features menu.
6. To deactivate any of the Call Forward feature, go to the respective screen and press Select or OK.

Activating EC500

About this task
Use this procedure to answer calls on your cell phone.

This feature is only available in the Avaya Aura® environment.

Before you begin
The system administrator must program the phone so that you can receive incoming calls on your cell phone.

Procedure
1. Press Main Menu > Features.
2. Use the Down Arrow key to go the EC500 screen.
3. Press OK.
Tracing a malicious call

About this task
Use this procedure to activate malicious call tracing (MCT) and providing information about the malicious call. This feature is available only if your administrator has set up the phone system to trace and track malicious calls and there is an attendant or controlling user to oversee the trace. This feature is only available in an Avaya Aura® environment.

Before you begin
Your system administrator must activate the feature for your extension.

Procedure
1. During an active call, press Main Menu > Features.
2. Use the Down Arrow key to go to the MCT Act screen.
3. Press OK.
   An alerting tone or flashing beacon LED indicates that the trace is active. Hanging up deactivates MCT.

Blocking your extension from displaying during calls

About this task
This feature is only available in an Avaya Aura® environment.

Before you begin
Ensure that the system administrator activates the option for your extension.

Procedure
1. Press Main Menu > Features.
2. Select CPN block.
3. In the Destination field, enter the extension number that you do not want the called party to see.
4. Press OK.
Chapter 10: Managing your presence

Enabling Away timer

About this task
Although Avaya J129 IP Phone does not display presence, it can report it so that the other devices can display your presence. Use this procedure to automatically update the presence status to Away after a predefined time.

🌟 Note:
This feature is only available in the Avaya Aura® environment.

Procedure
1. Press Main Menu > Settings > Presence Settings.
   The phone displays the Away Timer screen.
2. Press Change to turn on the timer.
3. Use the Down Arrow key to go to the Timer Value screen.
4. Enter time in minutes.
   You can enter any value from 1 to 999.
5. Press Save.
Chapter 11: Managing voice mails

Retrieving a voice mail

About this task
Use this procedure to listen to your voice mail messages. The beacon LED illuminates to indicate that you have a voice mail.

Before you begin
- Ensure that the system administrator configures the voice mail for your extension.
- Get the User ID and password of your voice mail from your system administrator.

Procedure
1. Press Main Menu.
2. Use the Down Arrow key to go to the Voicemail screen.
3. Press Select.
4. Follow the voice prompts to playback your voice messages.
Chapter 12: Customizing Avaya J129 IP Phone

Setting the Dial mode

About this task
Use this procedure to set the dialing method used to initiate dialing.

Procedure
1. Press Main Menu > Settings > Phone Settings.
2. Use the Down Arrow key to go to the Dial mode screen.
3. Press Change to select one of the following:
   - Manual: Press the Call softkey to start a call.
     Note: In the IP Office environment, use the Manual mode.
   - Auto: The dialed digits must match the dialplan to start a call.
4. Press Save.

Assigning Speed Dial

About this task
Use this procedure to assign speed dial numbers to your contacts. You can assign up to nine speed dial entries.

This feature is only available in the Avaya Aura® environment.

Procedure
1. Press Main Menu > Settings > Phone Settings.
2. Select Speed Dial.
3. Use the Up and Down Arrow keys to select a Speed Dial number.
4. Press Contacts to select a contact.
5. Press Select to assign the contact to the selected Speed Dial number.
   You can assign only one contact to a Speed dial number.

---

**Replacing and clearing a Speed Dial contact**

**About this task**

Use this procedure to replace or remove a Speed Dial contact.

This feature is only available in the Avaya Aura® environment.

**Before you begin**

Assign a contact to a Speed Dial number.

**Procedure**

1. Press Main Menu > Settings > Phone Settings.
2. Select Speed Dial.
3. Use the Down Arrow key to go to the Speed Dial contact that you want to replace or clear.
4. Press one of the following:
   - Replace: To replace the contact with another contact.
   - Clear: To remove the contact from the Speed Dial.
5. Press Replace or Clear when the phone prompts for confirmation.

---

**Setting Visual alerting**

**About this task**

Use this procedure to illuminate the beacon LED when there are incoming calls and messages.

**Procedure**

1. Press Main Menu > Settings > Phone Settings.
2. Use the Down Arrow key to go to the Visual alerting screen.
3. Press Change to activate or deactivate visual alerting.
4. Press Save.
Displaying Call timers

About this task
Use this procedure to display the duration of calls.

Procedure
1. Press Main Menu > Settings > Phone Settings.
2. Use the Down Arrow key to go to the Call timers screen.
3. Press Change to activate or deactivate the call timers.
4. Press Save.

Setting a ring tone for incoming calls

Procedure
1. Press Main Menu > Settings > Audio Settings.
2. Use the Down Arrow key to select Ring Type.
3. Press Select to choose the required ring tone.
4. Press Save.

Turning Button Clicks on and off

Procedure
1. Press Main Menu > Settings > Audio Settings.
2. Use the Down Arrow key to go to the Button Clicks screen.
3. Press Change to turn the audio on or off.
4. Press Save.

Turning Error Tones on and off

About this task
Use this procedure to activate the error tone alarm when you perform an incorrect action while using the phone.
Procedure

1. Press Main Menu > Settings > Audio Settings.
2. Use the Down Arrow key to go to the Error Tones screen.
3. Press Change to turn error tones on or off.
4. Press Save.

Turning audio settings on and off

About this task

Automatic gain control (AGC) raises the volume when a caller is speaking in a low voice and lowers the volume when the caller is speaking aloud. Use this procedure to turn AGC on or off separately for the headset and speaker.

Procedure

1. Press Main Menu > Settings > Audio Settings.
2. Select AGC.
3. Use the Up and Down Arrow keys to select the handset or speaker for which you want to turn AGC on or off.
4. Press Change to turn AGC on or off.
5. Press Save.

Setting Handset Profile

About this task

The task is relevant for people with hearing difficulties. Use this procedure to change the audio characteristic of the phone.

Procedure

1. Press Main Menu > Settings > Audio Settings.
2. Select Handset Profile.
   The phone displays the following:
   • Default
   • Normal
   • Amplified: Extends the maximum volume beyond the normal audio level. The option must be used with care because long term extended use of the highest volume settings can cause ear damage.
• Hearing Aid: Optimizes the sound quality of hearing aids.
3. Press Change to select one of the options.
4. Press Save.

---

Adjusting the contrast of the display screen

Procedure
1. Press Main Menu > Settings > Display Settings.
2. Select Contrast.
3. Use the Left and Right Arrow keys to increase or decrease the contrast.
4. Press Save.

---

Setting the display language

Procedure
1. Press Main Menu > Settings > Display Settings.
2. Select Language.
3. Press Select or OK to change the language.
4. Press Yes or OK when the phone prompts for confirmation.
   The phone returns to the Display Settings screen and the language changes to the selected language.

---

Setting the Time Format

Procedure
1. Press Main Menu > Settings > Display Settings.
2. Use the Down Arrow key to go to the Time Format screen.
   The phone displays the following:
   • Time Format 24 Hour
   • Time Format 12 Hour
3. Press Change to select one of the options.
4. Press Save.
Setting the Date Format

Procedure

1. Press Main Menu > Settings > Display Settings.
2. Use the Down Arrow key to go to the Date Format screen.
   The phone displays one of the following:
   - Default
   - mm/dd
   - dd/mm
   - mm.dd
   - dd.mm
   - mm-dd
   - dd-mm
   - mmm dd
3. Press Change to select one of the options.
4. Press Save.

Setting the time zone

About this task
Use this procedure to set the current time of the phone.

Procedure

1. Press Main Menu > Settings > Display Settings.
2. Select Time Zone to go to the My time screen.
3. To set the required time, do one of the following:
   - Use the Left and Right Arrow key.
   - Press - or + softkey.
4. Press Save.

Finding documents on the Avaya Support website

Procedure
2. At the top of the screen, type your username and password and click Login.
3. Click Support by Product > Documents.
4. In Enter your Product Here, type the product name and then select the product from the list.
5. In Choose Release, select an appropriate release number.
6. In the Content Type filter, click a document type, or click Select All to see a list of all available documents.
   For example, for user guides, click User Guides in the Content Type filter. The list displays the documents only from the selected category.
7. Click Enter.

Viewing Avaya Mentor videos

Avaya Mentor videos provide technical content on how to install, configure, and troubleshoot Avaya products.

About this task
Videos are available on the Avaya Support website, listed under the video document type, and on the Avaya-run channel on YouTube.

Procedure
- To find videos on the Avaya Support website, go to http://support.avaya.com and perform one of the following actions:
  - In Search, type Avaya Mentor Videos to see a list of the available videos.
  - In Search, type the product name. On the Search Results page, select Video in the Content Type column on the left.
- To find the Avaya Mentor videos on YouTube, go to www.youtube.com/AvayaMentor and perform one of the following actions:
  - Enter a key word or key words in the Search Channel to search for a specific product or topic.
  - Scroll down Playlists, and click the name of a topic to see the available list of videos posted on the website.
Related resources

Note:
Videos are not available for all products.

Support

Go to the Avaya Support website at http://support.avaya.com for the most up-to-date documentation, product notices, and knowledge articles. You can also search for release notes, downloads, and resolutions to issues. Use the online service request system to create a service request. Chat with live agents to get answers to questions, or request an agent to connect you to a support team if an issue requires additional expertise.
